

## A New Training Option for Navy MWR Food and Beverage Managers and CDC Cooks

CNIC and the National Restaurant Association have partnered to provide endorsed MWR employees with ServSafe® food safety online training and certification. The ServSafe® food safety online courses allow you to take training on your own schedule and spend less time away from the operation.

There are a limited number of free courses, books, and exams for each installation. Contact the POC for your region, listed below, to register and ask any questions you may have. CNIC has funded this program for one year, which will pay for one manager from each MWR/NAF Food and Beverage Cat C Location, as well as one cook from each CDC location enterprise wide.

Japan	Mike Hurchick	michael.hurchick1@fe.navy.mil
Korea	Mike So	mike.so@fe.navy.mil
